

# IELTS READING – HEALTH AND SAFETY CERTIFICATE FOR THE CONSTRUCTION INDUSTRY (H&S Certificate) S7GT4

## IELTS READING HEALTH AND SAFETY CERTIFICATE FOR THE CONSTRUCTION INDUSTRY (H&S Certificate) Reading Practice Test has 10 Questions..

### Who should register for this course?

The H&S Certificate is aimed at people who work as **q1 supervisors** within the construction industry (whether or not that is part of their job title), who are required to ensure that activities under their control are undertaken safely.

### Course duration

Option 1 – Conversion Course (for those who have a PHS Certificate – see below): 10 days, either one day a week or two weeks full-time.

Option 2 – Full Course (for all others): **q2 15 days**, either one day a week or three weeks full-time.

For both options, the written exam and practical assessment take half a day.

### About the course

The course provides thorough preparation for the H&S Certificate, which is an award in health and safety specifically designed for the construction industry. It combines theory with practice, ensuring that those who gain the certificate are capable of managing health and safety throughout each stage of the construction process, from planning and design to use and finally **q3 demolition**.

### You may already be one step towards gaining an H&S Certificate

The PHS (Principles of Health and Safety) Certificate can be taken separately or as part of the H&S Certificate. If you gained this qualification no more than **q4 five years** before entering for the H&S Certificate, it will be recognised as contributing to your Certificate without the need to repeat that unit of the course.

### Course content

The H&S Certificate is divided into three units. Unit 1 covers the principles of health and safety (and is identical to the PHS Certificate), Unit 2 covers the identification and control of **q5 hazards**, and Unit 3 deals with **q6 practical** applications of health and safety.

### How is the course assessed?

Candidates take written examinations for Units 1 and 2. Unit 3 is assessed by a practical examination testing the ability to identify health and safety issues in a construction workplace. Unit 3 needs to be taken within 14 days of a written examination.

A full certificate is issued on successful completion of all three units.

### Funding

Candidates from non-EU countries may be eligible for a small number of grants. These cover the cost of **q7 tuition**, but not examination fees. For details, please contact the Registrar.

### Enquiries

For further information please contact our administration office.
